

THORPE SHORN OF ALL HONORS WON IN SWEDEN

(Continued from Sixth Page.)

money for my athletic skill. I am very sorry, Mr. Sullivan, to have it all spoiled in this way, and I hope the Amateur Athletic Union and the people will not be too hard in judging me.

Yours truly,
(Signed) JAMES THORPE

Must Rearrange Table.

The effect of this statement is worldwide, as it will cause a rearrangement of the table of points scored in the Olympic games as well as the return of the two trophies won by Thorpe. The most important feature is that Sweden will take second place among the Athlete Nations by the exclusion of Thorpe from the tables.

In the Decathlon Swedish athletes finished second, third and fourth to the Indian athlete. Five points will be added to their total, giving them 21 points and putting Sweden ahead of Finland, which country scored 20. The United States is still left safely ahead of the other nations, but the total of points is reduced from 85 to 73. J. J. Donahue of America takes third, instead of second in the Pentathlon, while F. R. Big of Norway, is elevated to the Olympic championship. F. Lukman, of Canada, and the other four finishers are left in the same order from fourth to third. This gives Norway 7 points instead of 4 and Canada 16 instead of 15.

For the athletic events three trophies were presented by members of the royal families of England. Of these Thorpe won two, a bronze of King Gustav, of Sweden, presented by the King of Sweden, as a perpetual trophy for the Pentathlon, and the other a statue of the Old Viking Boat presented by the Emperor of Russia. These will have to be returned and according to the decision to-day, no time will be lost in shipping them to the Swedish Olympic Committee.

Will Turn Professional.

Though Thorpe's published statement intimates that he had no idea of playing baseball for money there was in it there is every likelihood that he will be seen in the professional ranks next season, and in the big league company at that. A man well acquainted with America's national game was authorized for the information that Thorpe had signed to play with the Pittsburgh team next season. That would not have affected his status as an amateur, for his contract was not made until after the Olympic games.

Warner Brings Confession.

Warner reached here early this morning and immediately sought the assistance of James H. Sullivan, who in addition to his position as secretary of the A. A. U., is chairman of the national registration committee, and secretary to the American Olympic committee. The disclosures made by Warner were so vital and convincing that Mr. Sullivan determined that no time should be lost in setting the United States right before the world. Colonel Robert M. Thompson, the president of the Olympic committee, has left for Panama, but Gustavus T. Kerby and Bartow S. Weeks, two vice-presidents and prominent officials were summoned to conference.

The meeting was held in the office of the secretary, at 21 Warren Street, and after Mr. Sullivan had placed the communications received from Warner in evidence, a statement was drawn up with the idea of rectifying as far as possible the harm done to athletics as represented by the United States by the inclusion of a professional in the American team. That the officials who had charge of the selection of the team were in no way to blame, is evident from the statement issued.

SUPREME COURT FAILS TO ISSUE REQUESTED ORDER.

Washington, January 27.—The Supreme Court of the United States today failed to issue at once its order to the Federal District Court in Southern New York to hold valid as far as the Sherman antitrust law is concerned the indictment of James Patton and others, on charges of conspiracy to run a cotton corner.

The Department of Justice a week ago requested the immediate issuance of the order so that, if desirable, it would have ample time to indict the brokers in case the present indictment is held invalid on other grounds. The government will be entitled to the issuance on February 6.

Withdraws Appointment.

Washington, January 27.—President Taft today withdrew the reappointment of William H. Keaton to be postmaster of Elizabeth City, N. C. Keaton has resigned from the post-office service.

HYOMEI and CATARRH

You've Tried Ointments, Sprays and Douches and Failed, now Breathe this Balsamic, Germ Destroying Air.

Why bother with makeshifts? Booth's HYOMEI has cured thousands upon thousands of acute and chronic cases of catarrh without stomach dosing. It will cure you if you are liberal enough to give it a chance.

If you could afford the time and the expense of a visit to the Eucalyptus forests of inland Australia you could soon get rid of catarrh.

Booth's HYOMEI brings to your home the same pleasant, healing, germ destroying air that you would breathe in inland Australia.

A complete HYOMEI outfit is \$1.00, and extra bottles, if later needed, are 50 cents. The little booklet in outfit gives simple instructions for use and also explains the HYOMEI vapor treatment which many use in conjunction with the inhaler with wonderful results.

All pharmacists worthy the name sell Booth's HYOMEI.

If a dealer is not convenient mail orders will be filled, charges prepaid, by Booth's HYOMEI Co., Buffalo, N. Y.

A Used STEINWAY PIANO At One-Third Reduction

Seldom will you have the opportunity of purchasing a world-renowned STEINWAY at a reduction in cost. We are making this offer only because the instrument, though practically good as new, has been used.

It was taken in exchange for a Pianola piano simply because the owner, not being able to play, found it useless to her.

We have thoroughly overhauled this USED STEINWAY, and in appearance and in sound it is almost as good as new, and it will give long and satisfactory service, and you may well take a pardonable pride in the possession of an instrument with the reputation of the STEINWAY.

Will be sold to first-come, so if you are interested ACT QUICKLY.

PUT SPEED LIMIT ON HELLO GIRLS FOR CAR TRACKS

Finance Committee Rejects Plan for Mayo Bridge Construction.

PROMPT ACTION IS URGED

Appropriation of \$15,500 Is Recommended for Cost of Tracks.

Richmond will construct, pay for, and own the street car tracks on the new Mayo Bridge if a recommendation of the Council Finance Committee made last night carrying an appropriation of \$15,500 is adopted. The amount of the appropriation is to be charged for the use by street cars is left for future determination.

Some weeks ago City Engineer Bolling called attention to the fact that work on the new bridge was nearing the point where the construction of the tracks would have to be determined. When the contract for the bridge was awarded, the contractors, J. J. Smith & Co. Inc., adopted the plan of building the bridge as a separate item not included in the general contract. The Virginia Railway and Power Company under its general franchise has the right, and in fact may be required to use the bridge, for its Hull Street line, the franchise having been held in abeyance since the old Mayo Bridge was completed.

Difference of Opinion.
In using the old Mayo Bridge which was the private property of the Mayo Land and Bridge Company, the street railway company paid out \$15,500 for the track work and sub-structure, as a separate item not included in the general contract. The Virginia Railway and Power Company under its general franchise has the right, and in fact may be required to use the bridge, for its Hull Street line, the franchise having been held in abeyance since the old Mayo Bridge was completed.

Bolling Anxious for Action.
To meet the urgent demands of City Engineer Bolling that construction be not delayed by unnecessary argument, and to meet the desire of the Virginia Railway and Power Company to have the bridge under its franchise, the company take the ground that when the bridge was built it was a public street, and that under its franchise the company may operate on it as on other streets, paying for the track construction and for the paving between and for two feet on each side of the tracks.

Committee Rejects Plan Proposed.
The committee thought the city would hold the upper hand in the situation by constructing the tracks on the first instance and charging for their use, and a resolution was forwarded to the Council providing for the appropriation of \$15,500 and instructing the City Engineer to have the tracks constructed when the city seeks to compel the company to live up to its franchise and use the new bridge.

May Cast Deciding Vote.
The nineteenth man's vote will be particularly potent when the time comes for the selection of the new faculty, as the nine appointees of each college will naturally incline toward the election of members of their respective faculties. To many local practitioners, the identity of the nineteenth man means either the loss or the gain of a professorship.

Because of the important part which this odd man is to play in the union and future harmony of the two merged institutions, the greatest care is being exercised in his selection and every effort will be made to name a man who is known not to have been affiliated with either college in the past.

The faculty of the Medical College of Virginia, which met last Thursday night, has named the nine men who are to represent that institution, and has also agreed upon a nineteenth member who will be put up to the University College of Medicine for approbation.

This man, whose identity the college authorities refuse to disclose, has never been connected with either institution in the past and is believed to bring an unbiased mind into the situation. While it was agreed that each college was to name nine members, this article was qualified by the state that the names were to be submitted to a committee from both colleges, mutually agreeable to both colleges.

A committee from the University College of Medicine, composed of Judge George L. Christian, chairman; Dr. Stuart McGuire, and Dr. J. Z. Morris, has been selected to take all necessary action for that college.

This committee will meet this morning with representatives from the Medical College of Virginia for mutual and reserve nominations for mutual and reserve members of the board of visitors. The Governor is expected to announce the appointments just as they are handed to him.

GOVERNOR MANN EXPECTED TO Issue List of Nineteen New Members To-Day.

Some time to-day the names of the nineteen men who will constitute the new board of visitors of the Medical College of Virginia will be presented to Governor Mann for official appointment. Such is the expectation of Dr. George Ben Johnston, representing the Medical College of Virginia, and Dr. Stuart McGuire, of the University College of Medicine, who will make the formal presentation in behalf of their respective colleges. The medical profession of the city and all those interested in the welfare of the new institution are keenly interested in the appointment.

According to the plans agreed upon for the merger of the two colleges, each college was to name nine members of the new board and both acting together to choose the nineteenth. Naturally, the selection of the nineteenth member is regarded as the crucial point of the merger, as his voice will be the deciding factor in any action to be taken by the board.

AMBASSADOR BRYCE VISITS UNIVERSITY

Addresses Large Audience as Lecturer on Barbour-Page Foundation.

Lecturer on Barbour-Page Foundation.

CLASSES SUSPEND TO-DAY

Will Discuss Remaining Points of His Subject, "Ancient Democracy."

(Special to The Times-Dispatch.)

Charlottesville, Va., January 27.—Ambassador James Bryce paid his second visit to the University of Virginia to-day, this time as lecturer on the Barbour-Page Foundation for the session of 1912-1913. He addressed a large audience in Madison Hall to-night, and will give the second and last lecture of the short series in Cabell Hall to-morrow afternoon. His general subject is "Ancient Democracy."

Ambassador Bryce arrived from Washington over the Southern Railway. He and his party rode in A. P. Thom's private car. Mr. Thom is general counsel of the Southern. He was accompanied by Mrs. Bryce, Mr. and Mrs. Thomas Nelson Page and Mr. Thom. Mrs. Page made possible the Barbour-Page Foundation by donating \$2,000 to the university for the purpose of having a distinguished lecturer of letters or of science brought to the university each year to deliver a special course.

The British diplomat and scholar, whom universities learned and who, perhaps, has been awarded more honorary degrees than any other man of his generation, has been touched lightly by the passing years. This is as bright, his mind as keen and his step as firm as that of a man of half his age, and his good humor has lost none of the richness that has brought him admiration and love wherever he has been.

Classes Will Be Suspended.
To-morrow the university will suspend classes from 11 until 2 o'clock, so that all members of the faculty and students may have an opportunity to hear Mr. Bryce's last lecture. Mr. Bryce began his lecture to-night Mr. Bryce began by observing that 137 years ago, when Thomas Jefferson was employed in drafting the instrument which made his name famous, and twelve years after the Declaration of Independence, the United States were busy over the work of the Constitution of the United States, there was in the world no constitutional government except that of Great Britain, and no democratic republic except a few tiny Swiss cantons.

"The great men of those days," he said, "were obliged to resort to the study of the ancient world for examples of free republics, for apparently they knew very little about the Italian republics of the Middle Ages, the republics of which had scarcely been written in English. Thus the great men of those days took their examples from the republics of the ancient world, and the most famous examples of public virtue and of democratic government were those of the Greeks and Romans, and the pages of the Federalist are full of references to the ancient world."

People drew from them in those days, not only political teachings, but the most famous examples of public virtue and of democratic government were those of the Greeks and Romans, and the pages of the Federalist are full of references to the ancient world."

**BOARD TO HEAR
HOW THEY WORK**

Department Heads Called in
Conference to Discuss Big
City Problem.

STREET CLEANING TO-DAY

Plans for New Free Bridge Not
Due Now Until
April 15.

Each of the major departments of the city government is to be taken up in detail by the Administrative Board, beginning with the Street Cleaning Department, the affairs of which are to be investigated this afternoon. The Board yesterday fixed the following dates for hearing from the various departments: Gas and electric street lighting, February 1; City Engineer, February 2; Water Works, February 3; City Electrician and Electric Plant, February 4; City Home, March 1; Cemeteries, March 3; City Chemist, March 5.

Complaints of L. O. Moore and others as to the filthy and unswept condition of Bank Street referred to the Superintendent of Street Cleaning for report. The petition for the opening, grading, curbing and guttering of Gilbert and Walker Streets, from Meadow Street to Williams Byrd Park, was referred to the City Engineer for an estimate and report.

New Concrete Bridges.
Complaint of Warner Moore as to the condition of the old wooden bridge over the dock at Second Street and instructions to report an estimate on the cost of a reinforced concrete bridge at this point, and also to report an estimate for a reinforced concrete bridge leading to the new Mayo Bridge. The City Engineer was instructed to make the necessary surveys and estimates on the cost of opening Virginia Street, which runs as a blind alley a half block north of Cary Street, through to Main, and also of widening an existing alley so as to open a new street from Cary to Main between Fourth and Fifth Streets, with a view to relieving congested conditions on Fourth Street.

The clerk of the Second Market was instructed to renew all stall licenses at existing rates, giving the privilege to hucksters to sell dressed poultry on their stalls, but providing that both live and dressed fowls may be sold only on stalls rented for that purpose.

Obstruction Will Remain.
On motion of Captain McCarthy an order of City Engineer Bolling requiring the elimination of projecting steps and an extension of a building at 1301 East Main Street, held to be an obstruction to a crowded thoroughfare, was suspended until further notice.

In order to give ample time for preparation of preliminary estimates, the Board advanced the date for receiving plans for the new Ninth Street free bridge from March 10 to April 10.

In a written report City Engineer Bolling said that he had removed a tree in front of the show window of a garage at 263 West Broad Street. The tree, he stated, was a beautiful willow oak, and part of the general tree planting system of that part of Broad Street. The Board rejected the petition for its removal, and the tree will stand. It does not obstruct the entrance.

The City Attorney reported a substitute ordinance in regard to management of the City Electric Plant, which was made the special order for consideration at 11 A. M. to-morrow. The Board recommended to the Council for adoption an ordinance increasing the rate of interest on damages from \$100 per annum to \$150 per annum, and providing that he shall give his whole time to the city.

The City Engineer recommended a number of telephone permits, in accordance with an opinion of the City Attorney to the effect that such routine permits are governed by ordinance and should be granted by the Administrative Board—not by the Committee on Streets.
